

6 REASONS

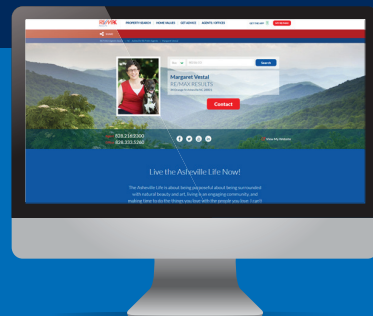

TO LOVE YOUR SINGLE-PAGE AGENT WEBSITE

1

IT'S ALL ABOUT YOU

The personal branding is undeniable with a prominent photo, customizable background image and front-and-center contact information. Plus, space for your personal video, Zillow reviews, and a listings map - it's all about promoting you.

2

THE LEADS ARE ALL YOURS

All leads generated on your SPAW come to you. What's better than that?

3

IT'S MOBILE, LIKE CONSUMERS

No matter what device buyers and sellers use to view your SPAW, the site will adapt, making it easier for them to navigate and take advantage of all the features.

4

IT PROMOTES LEAD CONVERSION

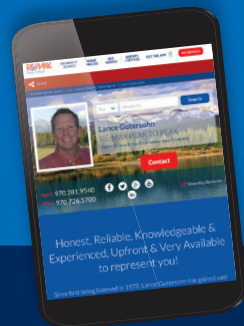

The site is full of actions for visitors to take - and they all trigger leads for you. Plus, the SEO is optimized, which means the chances are even better that consumers will find you.

5

IT LEVERAGES REMAX.COM SEARCH POWER

The search experience available to consumers on remax.com is the same search experience on the SPAW. Even top features like demographic data, drive times and school ratings appear on your site, too.

6

IT NEVER GETS STALE

It's automatically updated as new features, designs and enhancements are released. You'll always have a current, contemporary site you don't have to invest in redeveloping every couple of years.
