6 Things to Love About Your New Team Website

1. IT'S ALL ABOUT THE TEAM

Your team takes center stage with a photo, contact info and a listings map. Plus, a customizable background, optional team video and Zillow reviews.

2. THE LEADS ARE ALL YOURS

Listings and property searches are branded to the team, with multiple options for routing leads to team members.

3. IT'S MOBILE, LIKE CONSUMERS

Phone, tablet or computer. Your site adapts, making it easy for anyone to search for properties and use all the features.

4. MORE THAN MEETS THE EYE

Three highly effective options for managing lead routing, plus optimized SEO so search engines find you.

5. SEARCH POWERED BY REMAX.COM

Just like remax.com, the search results include demographic data, drive times, school ratings and other valuable information.

6. ALWAYS FRESH

The site automatically updates when new features, designs and enhancements are released. You always have a current, fresh site without extra effort.
